CONSTRUINDO PONTES PARA NOVOS NEGÓCIOS

Ao longo dos últimos anos, vimos o comércio global mudar de forma acelerada. Cadeias de suprimentos foram redesenhadas, mercados se aproximaram, e a busca por novos fornecedores e parceiros estratégicos ganhou ainda mais importância.

Foi observando esse movimento que nasceu a Global Supplier. Nossa proposta é simples: criar um ambiente onde quem produz e quem compra possam se encontrar, trocar experiências e construir negócios duradouros.

Hoje, a Global Supplier está presente no Brasil, no México e na Argentina, conectando empresas e ampliando oportunidades em alguns dos mercados mais relevantes da América Latina. Acreditamos que a região tem um papel cada vez mais importante no cenário global e que aproximar seus diferentes elos produtivos é fundamental para impulsionar o crescimento de todos.

Mais do que uma feira, este é um espaço de encontros, conexões e novas possibilidades. Que sua participação seja inspiradora, produtiva e o início de grandes parcerias.

BUILDING BRIDGES TO NEW BUSINESS

Over the past few years, we have seen global trade change rapidly. Supply chains have been redesigned, markets have become closer, and the search for new suppliers and strategic partners has gained even more importance.

It was by observing this movement that Global Supplier was born. Our proposal is simple: to create an environment where producers and buyers can meet, exchange experiences, and build lasting businesses.

Today, Global Supplier is present in Brazil, Mexico, and Argentina, connecting companies and expanding opportunities in some of the most relevant markets in Latin America. We believe that the region has an increasingly important role in the global scenario and that bringing its different productive links closer together is fundamental to boosting everyone's growth.

More than a trade fair, this is a space for meetings, connections, and new possibilities. May your participation be inspiring, productive, and the beginning of great partnerships.

CADEIAS GLOBAIS GANHAM NOVO HUB

**Global Supplier, a maior feira de
fornecedores internacionais da
América Latina, acontecerá em
paralelo à Eletrolar Show.**

GLOBAL SUPPLY CHAINS GAIN A NEW HUB

*Global Supplier, the largest international suppliers trade show
in Latin America, will take place alongside Eletrolar Show*

A expansão das cadeias globais de suprimentos na América Latina ganhou um novo ponto de conexão: a Global Supplier International Trade Show, um evento B2B itinerante voltado ao fortalecimento de negócios entre fabricantes e importadores.

A expansão das cadeias globais de suprimentos na América Latina ganhou um novo ponto de conexão: a Global Supplier International Trade Show, um evento B2B itinerante voltado ao fortalecimento de negócios entre fabricantes e importadores.

O projeto nasce a partir da consolidação de feiras já conhecidas do setor, como a Latin American Electronics e a Latin American Housewares, realizadas pelo Grupo Eletrolar All Connected. Agora, a proposta é ampliar o escopo e criar um ambiente mais integrado para sourcing internacional, desenvolvimento de fornecedores e geração de parcerias comerciais em diferentes países da região.

O crescimento da Global Supplier abriu espaço para a criação da feira Máquinas & Componentes, voltada à automação industrial e ao desenvolvimento do setor

The expansion of global supply chains in Latin America has gained a new connection point: the Global Supplier International Trade Show, an itinerant B2B event focused on strengthening business relationships between manufacturers and importers.

The project was created from the consolidation of already well-known industry trade shows, such as Latin American Electronics and Latin American Housewares, organized by Grupo Eletrolar All Connected. The proposal now is to expand the

e que acontecerá em 2027. Com a união entre a Eletrolar Show e a Global Supplier, o evento passa a formar a maior plataforma de negócios de eletroeletrônicos e bens duráveis da América Latina, reunindo os principais compradores da região.

A iniciativa fortalece São Paulo como um polo estratégico para o mercado, impulsionando negócios, exportações e novas oportunidades comerciais, além de ampliar a atratividade da cidade para empresas e investidores do setor.

Segundo Carlos Clur, CEO do Grupo Eletrolar All Connected e idealizador do projeto, a iniciativa responde a uma mudança estrutural no comércio global. "O objetivo é aproximar de forma mais eficiente quem produz e quem compra, em um cenário em que as cadeias de suprimentos estão cada vez mais complexas e descentralizadas", afirma.

scope and create a more integrated environment for international sourcing, supplier development, and the generation of commercial partnerships across different countries in the region.

The growth of Global Supplier opened space for the creation of the Máquinas & Componentes trade show (Machinery & Components), focused on industrial automation and sector development, which will take place in 2027. With the integration between Eletrolar Show and Global Supplier, the event now forms the largest business platform for consumer electronics and durable goods in Latin America, bringing together the region's leading buyers.

The initiative strengthens São Paulo as a strategic hub for the market, driving business opportunities, exports, and new commercial ventures, while also increasing the city's attractiveness to companies and investors in the sector.

According to Carlos Clur, CEO of Grupo Eletrolar All Connected and creator of the project, the initiative responds to a structural shift in global trade. "The goal is to bring producers and buyers closer together in a more efficient way, in a scenario where supply chains are becoming increasingly complex and decentralized," he states.

O evento também busca funcionar como um hub de negócios, reunindo diferentes elos da cadeia produtiva em um mesmo ambiente. “Mais do que uma feira, estamos falando de uma plataforma contínua de conexão, que facilita decisões de compra, diversificação de fornecedores e acesso a novos mercados”, diz Clur.

Na visão do executivo, a América Latina ocupa hoje uma posição estratégica nesse redesenho global. Por isso, em 2026, o encontro acontece no México, no Brasil e na Argentina. “Existe uma demanda crescente por regionalização e eficiência logística. A América Latina tem escala, capacidade produtiva e espaço para se consolidar como um polo relevante de abastecimento”, avalia.

A proposta da Global Supplier é justamente criar uma ponte entre essa oferta regional e a demanda internacional, promovendo negócios e reduzindo barreiras de entrada entre mercados.

The event also aims to function as a business hub, bringing together different links of the production chain within the same environment. “More than a trade show, we are talking about a continuous connection platform that facilitates purchasing decisions, supplier diversification, and access to new markets,” says Clur.

In the executive's view, Latin America currently occupies a strategic position within this global redesign. Therefore, in 2026, the event will take place in Mexico, Brazil, and Argentina. “There is a growing demand for regionalization and logistical efficiency. Latin America has scale, production capacity, and room to establish itself as a relevant supply hub,” he evaluates.

Global Supplier's proposal is precisely to create a bridge between this regional supply and international demand, promoting business opportunities and reducing entry barriers between markets.

EL FUTURO REAL DEL MOBILE COMIENZA AQUÍ.

En 2027, le **Congress Brazil Mobile** se realizará en paralelo a **Eletror Show 2027**, ampliando su fuerza como plataforma de contenido, innovación, networking y negocios para todo el ecosistema mobile.

aircon.

Es aquí donde se decide el comercio de América Latina.

Donde el comercio latinoamericano decide el futuro.

Tres países. Tres capitales del comercio. Una sola plataforma. Global Supplier reúne, en São Paulo, Buenos Aires y Ciudad de México, a los proveedores globales y los importadores, distribuidores y compradores que marcan el ritmo del mercado latinoamericano.

Más que una feria, es el punto de encuentro donde nacen las alianzas, se abren las rutas de importación y se trazan los negocios del próximo ciclo. Un territorio reservado para quienes piensan en grande, deciden rápido y operan a escala internacional — tres ediciones, un mismo movimiento estratégico que conecta a América Latina con el mundo.

Estrategia en cada
movimiento. Poder en
cada conexión
